Salesforce Platinum Partner

WMS

Advanced Warehouse Management System

- Whether it's asset tracking, warehouse management or simply order processing, we believe we have the solution to take your business forward.
- We offer substantial saving in cost, accuracy and speed of order receipt and dispatch. Expect payback on capital expenditure in less than a year
- Our automation and process control technology can be used for pick-and-place systems to aid automatic packing of goods. This means orders are 100% accurate

- AMS Assestets Management
- PMS Production Management
- Full Automation

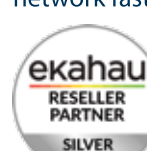

BÖWE SYSTEC

WiFi

Wifi Design and Assessment

Ekahau Connect is a suite of Wi-Fi tools & Services that enable you to design, optimize and troubleshoot any Wi-Fi network faster and easier than ever before.

RTLS

Real-Time Location System

Asset Tracking RTLS Systems

- Reduce the time spent finding misplaced assets, streamline maintenance, monitor and improve asset KPI's, and prevent equipment losses.
- We can help you avoid unnecessary asset replacement and rentals, improve utilization to eliminate production delays, and cut costs using UWB real-time tracking technology.
- Our RTLS utilizes a mesh network of UWB frequency anchors (active RFID readers) to track the movement, indoor/outdoor, of company equipment and assets.

ECS

Elite Customer Service

- Al-Hilal Systems & Solutions** goes beyond the usual standards of technical support for end-users. We established our **Elite Customer Service** to upgrade our tradition of unrivaled technical support.
- Quality control is ECS's sole mandate. The division operates in its own dedicated facility, a sprawling work area where our customer's actual services are tested before delivery. The ECS team also researches and tests the latest innovations from our manufacturers. This keeps them abreast of new solution that can increase the productivity of our customers' operation.
- ECS provides Al Hilal customers with a detailed statement of work for their particular project. These procedural documents illustrate the step-by-step project agenda and task-completion-record. The statement of work puts **Al-Hilal Systems & Solutions** duties in writing, guaranteeing that all customer specifications have been documented and carried out satisfactory.
